## MOFFAT PARK BARN

This beauty of a horse barn, west of Loveland turned out to be everything the owners hoped for. The traditional board and batten wood siding and blue steel roof matched perfectly with the other buildings on the property. The practical floor plan is very useful consisting of two horse stalls, enclosed tack room and open area on one side and a 16' x 40' oversized open area for hay and equipment storage on the other side.
